

Great Fit Tips

Some helpful tips on making your furniture look fantastic!

Removing Wrinkles:

Packaging of the slipcover will cause some wrinkling. You can remove wrinkles with steam or by placing the slipcover in the dryer at a low temperature with a damp cloth.

Tucking the Slipcover:

To help tuck excess fabric between the cushions and the arms, use a long handled spoon or spatula.

For a Fit that Holds:

Roll magazines and place a rubber band around each magazine and tuck in the crevices of your furniture to hold your slipcover in place.

Styling Narrow Arms:

If your furniture has narrow or wooden arms, you can purchase foam padding or polyester batting from a craft store and fold over the arms. Place the furniture cover over the padding.

Furniture with Loose Pillows:

Start at the back of your furniture and cover the loose back pillows first and then cover the arms and the seat cushions, working your way to the front of the furniture.

Leather Furniture:

To keep the slipcover firmly in place when you cover leather furniture, place a non-skid pad on top of the seat cushions between your furniture and the slipcover. This will keep the cover from sliding out of place.

Excess Fabric:

Tuck excess fabric between the cushions and the arms. Use the long handled spoon to help tuck and the rolled magazines to keep the excess in place.

Stretch Fabric Covers:

Place the bottom of the slipcover under the legs of your furniture to give the slipcover a cleaner look and help keep the slipcover in place.

Instructions:

Please read the instructions enclosed in the package to help with fitting your slipcover. Each slipcover has helpful labels for placement.

Stretch Fabric Slipcover

Instructions for Wing Chair

1. Choose correct size for your furniture by measuring the back height and seat width. Use placement labels for position.

4. Lift back of seat cushion and push down & under.

2. Drape cover over your furniture. Wrinkles should disappear due to the nature of the stretch fabric. However wrinkles can be removed with steam or by placing in the dryer at low temperature with damp cloth.

5. Tuck excess fabric between cushions and furniture frame until fit is smooth. Stretch fabric with elastic allows you to adjust for best fit.

3. Pull fabric down so elastic wraps under all four sides. Center and stretch to fit around furniture arms.

6. Enjoy your new look as the stretch fabric hugs your furniture and keeps it in place!

Stretch Fabric Slipcover

Instructions for Sofa, Loveseat or Chair

1. Choose correct size for your furniture by measuring from the outside of right arm to outside of left arm. Use placement labels for position.

4. Secure under cushions by lifting the back of seat cushions and pushing down and under.

2. Drape cover over your furniture. Wrinkles should disappear due to the nature of the stretch fabric. However wrinkles can be removed with steam or by placing in the dryer at low temperature with damp cloth.

5. Tuck excess fabric between cushions and furniture frame until fit is smooth. Stretch fabric with elastic allows you to adjust for best fit.

3. Locate arms and center of slipcover. Center and stretch to fit around furniture. Pull fabric down so elastic wraps under all four sides.

6. Enjoy your new look as the stretch fabric hugs your furniture and keeps it in place!

Stretch Fabric Recliner Slipcover

Instructions for Recliner

1. Locate placement labels on each of the 4 recliner slipcover parts. Please note the pocket on the left arm slipcover part. The right arm has a place for the chair handle.

4. Pull the back of cover downward. Stretch under bottom and use the elastic loops to hold securely.

2. Recline chair so the footrest is raised for all steps. Place arm covers over each arm, pulling down toward the bottom tucking as you go. Stretch under bottom to hold securely.

5. Place the footrest cover over the footrest and pull toward the back of the chair, tucking excess material between arms and back.

3. Place center cover over the chair back stretching it evenly as you pull it down. Tuck front portion securely where the chair meets back of seat.

Enjoy your new look as the stretch fabric hugs your furniture and keeps it in place!
