HANGING INSTRUCTIONS
FOR
BALLOON PANEL

1)   Place balloon panel on a flat surface so that you are looking at the reverse side.

2)   From the bottom of the panel, start threading the small clear ring onto the large split ring.

3)   Keep threading rings until desired height has been achieved.

4)   Repeat this procedure with other rows, making sure to stop at the same positions.

5)   You are now ready to hang your panel.

*Please Note: 6 split rings are enclosed. 5 are needed to adjust this panel. An extra ring is included in case of loss or breakage.
