

# Slow-Close Resin Toilet Seat Installation

## TOOLS NEEDED

Screwdriver  
(Phillips Head)

## PARTS LIST

Mounting  
Ring  
(2x)

Rubber  
Sleeve  
(2x)

Washer  
(2x)

Nut  
(2x)

Bolt  
(2x)

Loosen screw and rotate Hinge Mount as shown above. Tighten screw. Repeat on the other hinge.

Screw Bolt into the top hole of the Hinge Mount as shown.

Insert the Rubber Sleeves into the toilet bowl mounting holes.

Place the Mounting Rings onto the Hinge Mounts. The notch in the ring must line up with the bolts as shown.

Hold the Mounting Rings to the Hinge Mounts with your fingers as you lower the bolts through the mounting holes.

Secure the Washer and Self-Aligning Nut to the Bolt from below by turning clockwise. Finger tighten only.

Check alignment and fit of the toilet seat. Fully tighten. You can use pliers to tighten the nut if needed.

**Use Instructions:**  
Tighten nuts again after seat has been in use for several weeks.

**Care Instructions:**  
Clean with soft, damp cloth using mild detergent.  
Do not use abrasive cleaners.
