

Assembly Instructions

Caution:

Read instructions carefully and turn electricity off at main circuit breaker panel before beginning installation

WARNING

All wires are connected. When unpacking the box, be careful not to pull wires, as a bad connection may result. Do not connect electricity until the lamp is fully assembled. Unpack and place all parts on a hard surface on the floor.

ASSEMBLY INSTRUCTIONS:

- 1) Place the lamp body (C) on the floor.
- 2) From the base (G) take out E12 socket (A) and install the 7W max. nightlight bulb, not included (B) into socket (A). Put the socket, with bulb, back into the base (G).
- 3) Install the 60W max. or equivalent bulb, not included (D) into socket (C).
- 4) Slide the hurricane glass (E) over bulb (D) and secure the glass.
- 5) Put the glass shade (F) into the metal ring (H).

Important Safety Instructions:

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If it does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted.
