

Thank you for Purchasing the Paris House Number Sign.

We have taken great care to manufacture this house number just for you.  
Please review the assembly instructions. We hope you enjoy your new Paris House Number Sign.

---

Insert the mounting post into the bottom of the Paris sign.  
Please use a screwdriver to attach the post to the main body as shown.

Please note:

Please do not use a hammer directly on the post when placing it into the ground. We suggest placing a wood block on top of the post while using a rubber mallet to drive the post into the ground. You may also want to wait until the ground is soft before placing your sign.  
**Hammering directly on the mounting post may cause damage to the painted finish and may lead to rust of the unprotected finish.**
