

Assembly Instructions

CAUTION:

Read instructions carefully and turn electricity off at main circuit breaker panel before beginning installation.

WARNING

All wires are connected. When unpacking box, be careful not to pull wires, as a bad connection may result. Do not connect electricity until lamp is fully assembled. Unpack and place all parts on a flat surface or floor.

ASSEMBLY INSTRUCTIONS:

- 1) Place the lamp on a flat surface.
- 2) Screw the Socket assembly into the Base.
- 3) Screw Threaded Rod into the Socket assembly.
- 4) Put the Washer onto the Threaded Rod.
- 5) Place the Shade over the end of the Threaded Rod and screw the Finial securing the shade in place.
- 6) Insert bulbs into the bulb socket. Bulbs are not included.

Recommended (2) 60-watt standard base on/off bulbs or (2) 10-watt standard base LED bulbs.

Important Safety Instructions:

- This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If it does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician.
- Never use with an extension cord unless the plug can be fully inserted.
