

IMPORTANT: Please Read.

How to remove the sculpture from packaging:

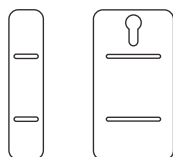

Your sculpture is firmly secured to a cardboard packaging tray.
Please remove sculpture by removing plastic ties from the back
of the cardboard packaging tray.

Never pull the product from the box by force. Damage of the sculpture may occur.

How to bend the support brackets to hang your new JasonW Studios® Sculpture:

Your sculpture was shipped with flat hanging brackets
and spacers that are welded to back of the Sculpture.

This was done to ensure the product could be secured in packaging and
to reduce the chance of damaging the sculpture in shipment.

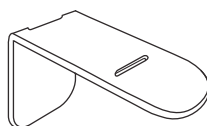

Please take the time to locate the hanging brackets and spacers.
Follow the instructions on how to bend the brackets and spacers
into place.

Note: Pliers may be used to assist you in the bending process.

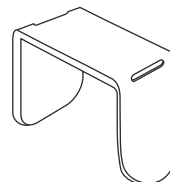

1

Each bracket is welded on the back
of the sculpture. It should be sent
to you flat or slightly bent.

2

Bend first section of bracket
downward.

3

Bend second section of the
bracket downward.

Thank you.....

for purchasing an original JasonW Studios® Sculpture. Your satisfaction with this purchase is our first priority.
This product was designed, manufactured, finished, and boxed right here in Huntingburg, Indiana.
We take pride in this American-made product, and we hope you enjoy it for years to come.
